MOONLIGHT SEEKERS
PRESS KIT 2026

MOONLIGHT SEEKERS

is a vibrant and unifying rock band from Montreal driven by a purpose that extends beyond music. Fueled by passion and kindness, the group's mission is to spark both personal and collective movements emphasizing the importance of sharing and well-being. Moonlight Seekers delivers a moving and electrifying performance that leaves no one indifferent.

THE WORDS

Whether real or fictional, the stories behind the lyrics expose the band's embraced sensibility, with a hint of sporadic cynicism. The upfront writing style reflects the band's unique perspective, inviting the audience to join them on their journey.

WHAT'S NEXT?

Carried by the momentum of their debut record, the band has already begun work on their second album, which will be produced by Franz Schuller (Indica Records, GrimSkunk) with the help of Brad Barr (The Barr Brothers), and mixed by Dave Schiffman (Rage Against the Machine, Red Hot Chili Peppers, Tom Petty). This collaboration signals a bold and inspired shift: a rawer sound, sharper contrasts, and a renewed emotional depth.

THE MUSIC

The band's songs are short, lively, and impactful. Transcendent rhythms and intuitive bass lines come together harmoniously with a saturated, psychedelic guitar sound. The lead vocalist's powerful, raw voice completes the sonic spectrum with genuine devotion. The result is an artistic symbiosis that recalls the energy of Cage the Elephant, the Black Keys, and Led Zeppelin, while drawing from the groovy touch of hip-hop and funk.

THE VIBE

Moonlight Seekers' explosive and thrilling performances create a profound connection with their audience, fueled by genuine, close interaction. Their contagious energy ignites an inner fire, leaving a lasting impression on everyone who attends their shows.

NOW PLAYING

After a period of relentless creativity, Moonlight Seekers have released their debut album on November 21, 2025.

Throughout the following summer, they unveiled five singles, each exploring a new corner of their sonic identity, from raw intensity to hypnotic grooves and heartfelt anthems.

The album, recorded at the legendary Wild Studio in St-Zénon and produced by Rick Blanchard, features the expert touch of Pierre Rémillard at recording, Jace Lasek at mixing (The Besnard Lakes), and Philip Gosselin at mastering (Le Lab).
